## Summary

---

B.S. Software Engineering student at the Milwaukee School of Engineering with over five years of programming experience across multiple languages. Experience from software contract and numerous personal projects. Passionate about continuous learning and problem-solving in dynamic environments.

## Education

---

**B.S. Software Engineering** | Milwaukee School of Engineering | GPA: 3.2 | May 2028

**High School Diploma** | West De Pere High School | GPA: 3.8 | June 2024

## Technical Skills

---

**Programming Languages:** JavaScript, HTML, CSS, Java, Lua, Python, SQL, C

**Tools and Environments:** Visual Studio Code, Webstorm, Cursor, IntelliJ, Android Studio, Git

**Productivity Platforms:** Google Products, Microsoft Office, GitHub, GitLab, Enterprise Architect

## Project Experience

---

### Unit Pricing Database | Software Contract

Developed a database to store unit pricing information for a construction company. Created a user-friendly frontend on Microsoft SharePoint that streamlined material pricing estimation. Learned how to quickly adapt to new frameworks and development environments.

### E-Commerce System for Game Engine Assets | Personal Project

Designed, developed, and maintained an e-commerce system for a game engine that enables customers to purchase assets made by a team of developers. Gained experience in integrating third-party systems and managing user data to build a cohesive application that smoothly handles transactions.

### Android Wear OS App for Milwaukee Tool | School Project

Collaborated with a team to deliver a Wear OS application based on requirements established by a representative of Milwaukee Tool. Learned about integration of health and location services. Used version control systems and modern industry practices to streamline development.

## Work History
